PROFILE SUMMARY

Skilled AI Full-Stack Developer with strong experience in Python, Django, FastAPI, and Generative AI, PostgreSQL, MySQL, Supabase technologies. Proficient in building scalable RESTful and GraphQL APIs, integrating third-party services (OpenAI, Stripe, PayPal, Twilio, Webhooks), and handling streaming and trading APIs. Experienced in designing responsive frontend interfaces using Django, Next.js, and Tailwind CSS. Led complete backend module development and deployment with a strong foundation in DevOps (Docker, Kubernetes, Git, CI/CD) and cloud platforms like AWS, GCP, Lambda GPU, and VPS.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript
- **Generative AI:** Comfyui, ChatGPT, Huggingface, Runpod, Ollama, DeepSeek, Fal
- **Frontend:** Next.js, Tailwind CSS, Django (Templates), HTML5, CSS3
- **Backend:** FastAPI, Django, Celery, Redis, RESTful APIs, GraphQL
- **Authentication & Authorization:** JWT, OAuth 2.0, Auth0, Django Allauth
- **Databases:** PostgreSQL, MySQL, Supabase
- **API Integrations:** Replicate, OpenAI API, DeepL API, Stripe, PayPal, Twilio, Webhooks
- **Testing & Debugging:** Pytest, Postman, Insomnia
- **DevOps & CI/CD:** Git, Docker, Docker Compose, Kubernetes, Nginx, GitHub Actions
- **Cloud & Hosting:** AWS, Google Cloud Platform (GCP), VPS, Lambda GPU
- **Tools:** VS Code, Jupyter Notebook, Sentry

WORK EXPERIENCE

Lead AI Full Stack Developer, (KLIKY AI)

JAN 2024 - PRESENT

Goal - KLIKY AI (AI GALLERY), 2024, TEAM SIZE - 3

Built the KLIKY AI (AI Gallery) web application from scratch with a 3-member team. Integrated Generative AI features including FaceSwap, Text-to-Image, Image/Video/3D generation, Audio processing, and OCR. Developed a secure admin panel to manage AI services, monitor usage, and handle the credit system. Led end-to-end development of key backend and frontend modules.

Full Stack Developer, AJATH INFO TECH PVT. LTD.

JUN 2021 - DEC 2023

PROJECT-5 – Dibly, 2023, TEAM SIZE – 4

Built a multilingual video translation app with AI-powered TTS, STT, and real-time transcription. Integrated Generative AI, secured sessions (MD5, SHA256, JWT, CSRF), and handled full-cycle development and API integration.

PROJECT4 - Paperport, 2023, TEAM SIZE - 2

Developed an AI-based tool to generate presentations and roadmaps from text/images. Implemented content generation, Firebase auth (OTP, push), and REST API integrations with ongoing feature and UX improvements.

Full Stack Developer, SARAJ SYSTEM PVT. LTD.

DEC 2019 - MAY 2021

KHANTAILOR (2020, Solo Project): Developed a custom tailoring eCommerce platform with design creation, measurement management, and appointment scheduling. Built an admin CMS, integrated Stripe and PayPal payments, and ensured security with MD5, SHA256, JWT, CSRF, SSL, and DDoS protection. Managed deployment with Docker and NGINX.

PathHub (2020, Team of 2): Maintained and enhanced a HIPAA-compliant medical web app serving 800+ hospitals for real-time diagnostic report generation. Improved UI/UX, optimized report modules, and ensured secure, scalable access to imaging workflows.

OZMED (2021, Team of 2): Developed and maintained a subscription-based online learning platform with content delivery, mock exams, and progress tracking. Delivered secure subscription management and robust backend solutions for smooth user experience.

EDUCATION

Geeta Engineering College, Panchkula Board

AUG 2017 - MAY 2020

DIPLOMA IN MECHANICAL ENGINEERING
